Only days remain: Satellite Switch from SES-2 to SES-11 | Deadline: June 1 2025

Moody Radio is in the process of transitioning from our current satellite, SES-2 at 87-degrees West Longitude, to SES-11 at 105-degrees West Longitude. The new carrier is now operational, and the SES-2 carrier will no longer be available after June 1, 2025. The two-month window for Moody Radio affiliates to re-aim their satellite dishes is quickly coming to a close.

Affiliates receiving programming via satellite are responsible for re-aiming their satellite dishes to SES-11. We recommend bringing in an experienced engineer to assist with satellite alignment and installation.

New from Moody Publishers: *The Story of Joseph: How God Can Redeem Imperfect Families* by Erin Davis

Hope and redemption—for your family and mine.

We all have hopes for our families, yet each family tree holds gnarled branches of sin, disappointment, rebellion, and grief. In this eight-week study, Bible teacher Erin Davis walks you through the life of Joseph—a story filled with dysfunction and pain, yet ultimately redeemed by God's hand. *The Story of Joseph* is a powerful reminder that no brokenness is beyond God's redemption.
