#### ***The Love Language That Matters Most* by Gary Chapman & Leslie Parrott III & Les Parrott**

How to Personalize Love So They Really Feel It

Dr. Gary Chapman has helped more than 150 million people discover their love language. But discovering it is just the beginning. Love isn't one-size-fits-all. What says "I love you" to one person might not mean a thing to another.

Each love language has dialects—personal and powerful ways love is uniquely expressed and received.

They reveal why love often gets lost in translation—and how learning to speak the right dialect at the right time is the key to deeper connection.
