It was such a joy to connect with many of you at this year's Christian Music Broadcasters Momentum conference! We hope you found the sessions and times of fellowship as meaningful and encouraging as we did.

A Brand-New Release from Moody Publishers

***Surrendered Sexuality* by Dr. Juli Slattery**

Recognized expert in biblical sexuality Dr. Juli Slattery brings decades of experience, biblical insight, and deep faith to her latest work, *Surrendered Sexuality*. In this powerful new release, she invites readers to surrender their questions, struggles, and view on sexuality to the God who transforms everything.

Dr. Slattery provides a clear, biblical understanding of the significance of our

sexuality and the transformational power of Christ. Readers will discover that Jesus came not primarily to change behavior, but to renew our identity—an identity rooted in union with Him, not defined by our wounds, desires, past sins, or even our pursuit of purity.

This new book is now available from [Moody Publishers](#). For author interviews, please contact [Christianne Debysingh](#).

Clock Changes for Sunday Afternoon Music Hours on Moody-1 | Effective August 3, 2025

Starting Sunday, August 3, Sunday afternoon music on Moody-1 (MB1) will shift to the Praise & Worship music format for hours 1pm CT - 5pm CT.

Please find the updated clocks and related documents at moodyradio.org/stations/affiliate/resources.

Moody Radio Offers New XDS-PROS Receivers for Sale

With the current satellite transition from SES-2 to SES-11, some Moody Radio affiliates have asked about replacing their aging XDS-PRO1Q and XDS-PRO4Q receivers originally deployed in 2012–2013.

Many of these units are now over 13 years old, and factory repair support ended in 2020. While older “Q” models can still receive the SES-11 satellite feed, this may be

a good time to consider upgrading to the current “S” model receivers.

The [**XDS-PRO1S**](#) (single audio output) and [**XDS-PRO4S**](#) (four audio outputs) feature:

- 256 GB solid-state drive
- AES Livewire+ port
- DB-9 analog audio output(s)
- LAN-1 and LAN-2 Ethernet ports
- DB-37 relay ports

Most affiliates can continue accessing both Moody-1 and Moody-2 using the [**XDS Affiliate website**](#) for scheduling via the XDS Network Management System.

Moody Radio currently offers these receivers to affiliates at the following prices:

XDS-PRO1S – \$2,255.00 (245 GB SSD, one audio output)

XDS-PRO4S – \$2,950.00 (256 GB SSD, four audio outputs)

An additional configuration and handling fee of \$125 per unit applies, plus shipping. Prices are subject to change.

To confirm pricing or to begin your order, please contact Moody Radio Affiliate Relations at [**affiliates@moody.edu**](mailto:affiliates@moody.edu).
