Moody Radio Special Programming for Your Station

In America, expressing your faith in Christ often means going to battle for your beliefs—legally and spiritually.

Consider these stories of religious conviction that lead to open conflict and even legal action. Examples of persecution just for living a life based on Christian beliefs.

How *could* we respond? How *should* we respond?

Moody Radio is excited to announce a new special, ***Battlelines for Believers—Help for Christians Under Siege.***

On Saturday, August 30 at 3 pm CT, Moody Radio will air this 54-minute program, featuring attorney David Gibbs as he explores four critical battle grounds believers face today while living out their faith in a world increasingly hostile to Christianity.

As the founder of the Christian Law Association, David arms believers with his legal expertise through eight dramatic vignettes. This presentation offers practical, real-world advice regarding what to do when rights as believers are challenged or even threatened.

Moody Radio XDS Program Identification Changes | Thursday, August 7–Friday, September 5

Attention Moody Radio affiliates: Stations using the XDS receiver platform for programming from Moody-1 and Moody-2 will experience updated Program Identifications (PIDs) beginning this August.

Why is this happening?

This update follows our spring satellite migration from SES-2 to SES-11, which was completed on June 1. As a result, PID numbers for all programs aired on Moody-1 and Moody-2 will be changing between Monday, August 11, and Friday, September 5.

What are the new PIDs?

- Moody-1: Changing from PID 1200 to 1205
- Moody-2: Changing from PID 06D2 to 1206

What will be happening?

For 24/7/365 Moody Radio Partners:

Moody Radio began updating XDS receivers programmed for full time Moody-1 and/or Moody-2 programming on August 7. Stations using the [XDS Affiliate website](#) for programming selected programs for live or time-shifted release times will need to update those instructions. Please see the Tech Specs sheet for [details here](#).

Can your station make the change manually?

Yes! If your receiver is set to Moody-1 (MB1 Live) or Moody-2 (MB2 Live) with no custom scheduling, you can update it in two ways:

- On the front panel: Select MOODY 1 NEW or MOODY 2 NEW
- Via the receiver's web interface:
 - **Use PORT PID A 1205** (for MB1)
 - **Use PORT PID B 1206** (for MB2)
